Re: MMI No. 1-00000
South Anido Creek Area
San Juan County, Utah

Gentlemen:

We are preparing to drill the following described 5600' Desert Creek test well:

Location: Section 25-T43S-R24E, SLM
SW SW (660' FWL & 660' FSL)
South Anido Creek Area
San Juan County, Utah

Lease: Navajo Tribal Contract 14-20-0603-611

Lessee: Champlin Petroleum Company and
W. A. Moncrief

We are submitting to the U. S. Geological Survey an Intent to Drill (Govt. Form 9-331-C) with attached location plat, executed Designation of Operator from Champlin and Moncrief, Affidavit stating there is no evidence of mining operations or evidence of possession of the land, and field surveyor's certificate covering all of Section 25-T43S-R24E. Will you please advise if copies of the above instruments, together with Utah Oil & Gas Conservation Commission fee, will satisfy your requirements to give approval to drill this well. Also, if the Utah Oil & Gas Conservation Commission requires a fee for a permit to drill a well, will you please advise the amount.

Further, it is our understanding that approval must be obtained:

1. To provide a roadway
2. For clearing any trees on the location which may interfere with drilling operations
3. In connection with the preservation of archeological remains which may be present on the location

Utah Oil & Gas
Conservation Commission

-2-

October 20, 1969

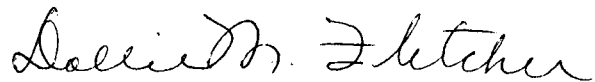

We will appreciate your advising us if approval for the above three items, if needed, is given by your office and if not, your directing us to the proper agency.

Should there be other requirements necessary for approval, please advise.

We are making inquiry of the U. S. Geological Survey and the Navajo Indian Agency at Window Rock, Arizona to ascertain their requirements for drilling approval and copies of these letters are enclosed.

It is our present plan to commence drilling operations no later than November 20, so we will appreciate receiving this information as soon as possible.

Very truly yours,

Re: MMI No. 1-00000

Dear Ms. Fletcher:

Received your letter of October 20, 1969, pertaining to information concerning drilling requirements for the State of Utah.

To obtain the approval of this office, it will just be necessary for you to forward copies of the forms you sent to the U.S. Geological Survey. Also, there is no fee for a permit to drill required by this office.

With regard to your questions concerning approval for a roadway, tree clearing, etc., you will have to obtain the permission of the Navajo Indian Agency in Arizona, as this office is only concerned with the actual drilling of the well.

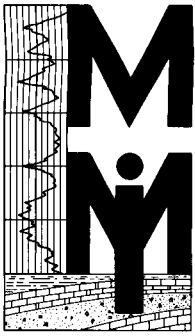

I hope this information answers your questions, however, if not please do not hesitate to contact our office. For your convenience, I have enclosed a copy of the Division's Rules and Regulations and Rules of Practice and Procedure.

Very truly yours,

I, the undersigned, being first duly sworn on oath, state that I have personally inspected the surface under Navajo Tribal Lease Contract No. 14-20-0603-611 covering all of Section 25, Township 43 South, Range 24 East, SLM, San Juan County, Utah, and have found no evidence of any mining operations being conducted and no evidence that any mining operations were ever conducted on this property. I, likewise, could not find any Placer Claims or any evidence that any Placer Mining Operations have been conducted on this lease.

I further state that I am familiar with the above lands; that the above lands are unoccupied and unimproved and there is no evidence of above lands having been occupied or improved except that there is a brush shelter located in the northwest quarter of the northeast quarter of Section 25; that no crop is planted or being grown on any part of the above lands; that no person is living on any part of the above lands; that there are no improvements on the above lands; and that the above lands are in entire disuse and wholly unoccupied, except for the above mentioned brush shelter.

I further state that I am not familiar with the laws of occupancy in the State of Utah, but the brush shelter appears to be a Navajo summer hogan and could have been occupied as recently as during the summer of 1967 and 1968.
